

THE NAYAX PULSE

Attending to our customers,
tending to each other

News from the field

Nayax Retail expanding its offering with the acquisition of UPITec

We are pleased to announce the recent acquisition of UPITec Software, a leading provider of retail software solutions provider, specializing in the SAP Business One environment.

This move is part of Nayax's growth strategy and our efforts to expand our offering to both the mobility and attended retail markets. UPITec, established in 2005, has offices in both Israel and Ukraine, with a total of 40 employees and consultants, 14 of which are based at the corporate offices in Petach Tikva.

By combining UPITec's expertise in retail software solutions and Nayax's established experience as a global payment service provider, we can now provide merchants with complete end to end, out of the box solutions, to enable them to grow their business quickly, without compromise.

The partnership will leverage Nayax's connections in the financial arena to provide an innovative platform, starting from on-boarding, through simple operation and speedy response.

We will all get the opportunity to meet the UPITec team and to personally welcome them to the Nayax family soon. Until then, we would like to take this opportunity to say thanks to Betzalel Mordachai, founder and CEO of UPITec, for his "can-do" spirit, ongoing collaboration and overall professional contribution which enabled this deal.

As we move forward as one joint force, we will continue to communicate the onboarding process to ensure a seamless transition for UPITec employees.

Please join us in welcoming the UPITec team!

Happy Birthday

We still want to celebrate!

It's a tough time to have a special occasion so let's send best wishes to our co-workers below!

Chronicle – a word from Nayax employees

Miss being able to see colleagues in the hall? Saying hi in the kitchen? Here's a quick intro to 2 Nayax employees: Anna Mor and Tom Mor, both from Nayax Israel.

Anna Mor's interview

What's your story? (tell us about you / family / background)

Artist, Technician, Academic, Pastry Chef.

What do you do at Nayax?

Reminding clients to pay

What's your tip for working from home?

Have special PJs for work

What's your Netflix addiction?

RuPaul

What's the first thing you will do when the quarantine ends?

Shower

Tom Mor's interview

What's your story? (tell us about you / family / background)

I've started working at Nayax in March 2015, as a Junior System Administrator and Helpdesk.

I have 2 siblings (younger sister and a younger brother), am originally from Ra'anana and have been living in Tel Aviv for the past 7 years or so. My parents and siblings still live in Ra'anana.

I have a BA in Eastern Asia Studies (met @Anna Mor in Japanese class in our second year doing the degree).

What do you do at Nayax?

What do I do? What don't I do???? 😊 (Officially, Team Leader at the ITops (DevOps) team – the team in charge of the production and QA/Dev environments.)

What's your tip for working from home?

Setup a work station that is as close as possible to the one you have at the office (just without the standing desk, since that's waaayyy too expensive!).

What's your Netflix addiction?

The Witcher, Altered Carbon, 100 Humans.

What's the first thing you will do when the quarantine ends?

Take a vacation abroad somewhere.

Tips for working from home

Daily Routine

It takes a few days to find your rhythm so maintain a regular daily routine (exercise, breakfast, work, rest, work, lunch, etc.)

Dress up

it also raises the morale

Productive Time

Research has proven that between 9:00 – 11:00 is when we are the most productive for in-depth thought. (Try to avoid using this window of time to answer phones, do admin work, etc.)

Comfortable Workspace

Define a comfortable workspace to serve as an office (try to separate between home and "office")

Regular Breaks

Regular breaks during the day: Take your usual lunch break, away from your work space

Celebrate Progress

it's easy to feel even more isolated so share your accomplishments with your team and manager!

Nayax Remote!

How are people working these days? Check it out, and send us your own work set-ups!
